

## 2026 Term 2 Progress Report

### Entabeni Nursery & Preschool

Principal: Bukelwa Margaret Petros  
33 children enrolled

This term we set out to build a new fence, fix the Grade R roof and back wall, install sholin brick behind the school, and get tiles down in our 6-month-to-3-year Winnie the Pooh classroom. We're pleased to say the fence is done — we now have a lovely new white picket fence — and the Grade R roof has been fixed. We're still organising the sholin bricks, and the Winnie the Pooh floor still needs its tiles.

Our biggest challenge this term has been around fundraising. On top of that, a storm came through and damaged our one classroom.

Even so, we've had wonderful community support: firefighters visited to do fire awareness with the children, a dentist came to check the children's teeth, and the Rotary Anns helped us with a microwave and with repairs after the storm.

Bakersman

It's been a busy, joyful term of highlights — we celebrated Valentine's Day on 12 February, held Bakersman every Friday, ran a Sports Day on 2 March, held a clean-up day on 18 April had a braai day on 24 April.

Sports Day

Looking ahead to next term, our plans are to build two bathrooms for the children and move our Grade RRR class up into Grade RR to better accommodate the class sizes.
